

Now Offering Normal Human and Animal Specimens in New Standard Sizes

Our new ready-to-ship, standard-size aliquots are produced with the same rigorous quality control processes while offering the following benefits compared to our conventional custom-fill products:

- **Lower prices**
- **Direct ordering through our website**
- **Shorter order-to-ship lead times**
- **Standardized documentation**

Find the perfect biospecimens to empower your research, visit bioivt.com to browse our inventory, view pricing, create a quote and order products. **Our new standard-size products are summarized in the table below.**
